WELCOME MESSAGE

Greeting to all

It is with great pleasure that I, on behalf of ADITI welcome you for EXPODENT- 2019, Bangalore.

We bring you the latest developments in the field of dentistry as regards dental equipments, materials, consumables and systems, that reflect the global trends in this vast science. To reiterate what we have been professing all along, it is our firm belief that constant updation in knowledge, this 'reinventing' of ourselves is what defines our standing in our chosen field of endeavour. Towards this, EXPODENT is our contribution, to be experienced and partaken of by all who are involved in the field of dentistry and allied sciences.

Every member of our association is striving hard to offer the best in technology, pricing and variety. Dentistry is growing very fast at the same speed to rehabilitate the lost structure, material science also is growing fast. If you don't space with this growing science you may lag behind.

Please attend the Expodent and experience for yourselves the current trends in this field. We look forward to meeting you soon.

with warm regards,

Dr. B. Subashchandra Shetty, MDS

V-CARIE-SOLVE™

Carious Dentin Removal
Painless, No Drilling

Vishal

INTRODUCING NEW CAPRICA PAPAYA EXTRACT GEL

WITH VITAMIN "A" AND "C" FOR THE CHEMO

MECHANICAL REMOVAL OF DENTAL CARIES

FDCA Approved

1. V-CARIE- SOLVE selectively dissolves Carious Dentin.
2. V- CARIE- SOLVE preserves healthy Dentin.
3. V- CARIE- SOLVE minimizes the use of Rotary Instruments
4. Removes carious Dentin only by using hand instruments.
5. Good for carious Dentin removal of anxious patients, un co- operative patients, Pediatric patients, wide cavities, Carious lesions encroaching the Pulp, teeth indicated for indirect the pulp capping.

HOW TO USE

1. Remove Hard Substance such as enamel or old fillings with the use of drill.
2. Put 1 or 2 drops of V-CARIE-SOLVE in to the space provided in to the inner tray.
3. Apply the Gel to the Carious Dentin using applicators provided in the pack.
4. Soak the caries generously in V-CARIE -SOLVE.
5. Wait for 30-60 seconds. The chemical process Will soften the caries.
6. Scrap off the softened carious Dentin using a multi star tip hand instrument. Avoid flushing or drying the cavities.
7. If the lesions soaked with V-CARIE-SOLVE and not free from caries,continue scrapping. Repeat until the surface feels hard.
8. When the cavities free from caries wipe the cavities with the moistened cotton pallet or rinse it with the lukewarm water.
9. Restore the tooth with the suitable filling material.
